

OVERVIEW

Newgistics combines industry-leading processes and technology, personalized service, and the unrivaled convenience of the USPS to offer the most comprehensive set of delivery and returns services available to residential shippers. The result is improved service, end-to-end visibility, reduced costs, and happier customers.

Advantages of Newgistics' small parcel service:

- National processing and distribution network of Newgistics' SmartCenters that interface with the USPS
- 6 day-a-week deliveries
- APO, FPO and PO Box deliveries
- Zone skipping decreases delivery cycle times and costs while increasing customer satisfaction
- Combine mail and parcels into one load for pickup, eliminating pre-sort activities and costs

Newgistics is a fully integrated carrier module within Kewill Clippership with complete electronic manifest functionality, utilizing industry-standard 4x6 labels and printer equipment - allowing you to preserve your capital investment.

SUPPORTED SERVICES

- **First Class** - combine first class mail and parcels into one load for pickup
- **Priority Mail** -Newgistics is the only consolidator with the ability to offer Priority Mail[®], an expedited small parcel service, through the United States Postal Service
- **Parcel Select** -allows you to optimize your distribution activities and lower costs while leveraging the most extensive delivery network on the planet. With Newgistics' ability to zone-skip through its national transportation network, you can provide your customs with the highest quality delivery experience while saving time and money through a predictable cost model
- **Bound Printed Matter** -a cost efficient way to mail permanently-bound sheets of advertising, promotional, editorial and directory material such as catalogs and phonebooks
- **Standard Mail Irregular, Standard Mail Machinable, Standard Mail Not Flat Machinable** -eliminates the one-pound minimum charged by other carriers for non-Postal services, 6 day-a-week delivery, APO, FPO and PO Box deliveries, Delivery Confirmation available, improved cycle time as compared to traditional USPS Standard Mail deliveries, end to end package tracking with email notification service for delivery events and delivery exceptions
