

OVERVIEW

Kewill shipping solutions are certified through the US Postal Service's Manifest Analysis and Certification (MAC) process and support an array of easy to use and automated features enabling businesses to expedite their shipping and mailing processes.

FEATURES & BENEFITS

- Rates and processes mail and shipments sent via USPS.
- Calculates postage and prints mailing labels adhering to postal regulations.
- Generates official USPS mail manifests, adhering to USPS regulations. Mail manifesting is a viable option for any company mailing as little as 200 pieces or 50 pounds of mail per day.
- Supports special services such as Delivery Confirmation, Certified Mail, Registered Mail, Return Receipt Requested, and Insurance.
- Supports optional Postage Meter Interface
- Supports Offweight mode, expediting the mailing process even further by eliminating ALL keystrokes. Simply place all mail pieces on the scale and let the system automatically manifest each piece as you remove it from the scale.
- Supports Departmental Verification & Budget Authorization, ensuring departmental charge backs are assigned accordingly and budgets are not exceeded.
- Integration to Endicia DAZzle available
- Standard interface to Laser Substrates for support of Customs Declaration and Dispatch Note forms 2976 (CN22) and 2976A (CP72).

DELIVERY CONFIRMATION SUPPORT

Delivery Confirmation is a free service offered by USPS for Priority Mail if you file electronically. Kewill applications are certified to support the technical requirements of the Delivery Confirmation service, which enables businesses to enjoy the savings of lower-priced postal rates, while gaining the ability to confirm receipt of their shipments.

Confirmation is retrieved electronically through automatic download of the extract file. Kewill solutions generate the barcode and electronic file adhering to USPS regulations (USPS- provided pre-barcode labels are also supported).
